THE DIMPLED CHIN.

I kissed her baby on its chin,
(Just when the nurse-maid turn d away,)
Kissed the dimples soft and sweet—
Like hers, who should have been my May.
I did not kiss its bright black eyes,
They had its father's foreign stare;
I did not touch the ruddy cheek,
Nor stroke the dark and curling hair.

The mother's fare I scarcely see,
For I turn away my head in pain
From those soft eyes and sunny looks,
Sending my sad thoughts back again
To hours when I believed her true,
Promising love for evermore;
And starlight asw me sot the seal
On a dimpled chin by the cottage door.

Sometimes her carriage thunders by;
From its carcless splash I shrink aside,
And set my teeth together hard,
Seeing the rich man at her side.
I see it now—those toil-worn hands
Were never it to clasp her own;
Heaven knows I loved her well enough

I thought I did the boy no wrong;
But, oh! the bitter pang it gave
When fierce his hand, in anger raised,
Struck at me as if I were a alave.
May's child! I would have loved it so
For her, and days that might have beFor Auld Lang Syne, for memory's sake,
And for the dimple in its chin.

I take to-night my bitter heart Away beyond the troubled so

Away beyond the troubled sea,
Its tossing waves may bring, perchance
Through its unrest new peace to me.
Baby, good bye! I bear no gradge!
Though worldly wealth I go to win,
No gold can buy the kiss away
I stole from off that dimpled chin. COMMERCIAL.

AUGUSTA, June 24.—Corrow—The market was dull to-day, there being but little demand and buyers not meeting the views of sellers. We refer to the sales, which amounted to 84 bales, for prices, as follows: 2 at 17, 1 at 19, 1 at 29, 8 at 21. 4 at 23½, 6 at 23, 25 at 23½, 2 at 24, and 84 bales at 25 cents. MOBILE, fune 20.—Corrox—Aftir demand has exised to-day, with sales chiefly to three buyers. While we have no change to note in quotations, the decline of %d in the Liverpool market to-day caused som: factors to accept offers which they have refused to entertain for some days past. The stock on sale is so light, however, that it is not probable any material decline will be submitted to, unless r marked change in the Liverpool market should take place. The day's business feet up 550 bales; Middling 24224%c, even running lots commanding outside figures.

MOMETARY AND FIRANCIAL.—We have another quiet day to report. Rates continue to rule as yesterday—say:

REW ORLEANS, June 20.—Corrow—The market opened this morning with a continuance of the previous dulness, to which the receipt, at a later hour, of rather unfavorable accounts from New York and Liverpool, materially superadded. The offering supply was meagre throughout, and there was a general disinclination on the part of buyers to operate unless at concessions, which factors steadily refused. The business transcoted has been of an inconsiderable character, aggregating at the close barely 350 bales, eight brokers participating in the business. rices indicated continued firmness—the principal por-ces of the limited sales affected being at figures within to range of last evening's quotations, which were as fol-test Ordinary 20x10, Good Ordinary 20x —, Low Mid-ling 24/x—, and Middling 28:27c. I have been for a year or more past in the habit of taking the water of the "Excelsior" Spring of Saratoga. Accustomed during the great portion of my invalid life to use the different waters of the several fountains which boil up along that remarkable valley, dependent, indeed, upon them for much of the comfort I enjoy, I am satisfied that the Excelsior Water is as well adapted as any other among them, if not more so, to the purposes for which they are generally employed. It is very agreeable, strongly impregnated with the carbonic acid, lively and sparkling. \* \* I can heartly and conscientiously recommend it to all who need a gentle cathartic and diuretic.

Mich are the evidences of
LIVEE COMPLAINT AND DYSPERSIA.

It is estimated that seven-tenths of all adult aliments proceed from a deceased and torpid liver. The biliary secretions of the liver overflowing into the stomach poison the entire system and exhibit the above symptoms. After long research, we are able to present the most remarkable cure for these horrid nightmare diseases, the world has ever produced. Within one year over six hundred and forty thousand persons have taken the Plantatios Bittlers, and not an instance of complaint has come to our knowledge!

It is a most effectual tonic and agreeable stimulan seited to all conditions of life.

The reports that it relies upon mineral substances fo its active properties, are wholly faise. For the satis faction of the public, and that patients may consult their physicians, we append a list of its components.

Oalmaya Bark.—Celebrated for over two hundred years in the treatment of Fever and Ague, Dyspopsia, Weakness, etc. It was introduced into Europe by the Countess, wife of the Vicercy of Peru, in 1640, and afterwards sold by the Jesuits for the enormous price of its own weight in silver, under the name of Jesuit's Powders, and was finally made public by Louis XVI, King of France. Bumboldt makes especial reference to its febrifuge qualities during his South American travels.

Oasoarilla Bark—For diarrhoss, colic and diseases of the stomach and bowels.

Danbellon—For inflammation of the loins and dropical affections.

Characoulus Flowers—For enfechled digestion. In the construction of which they have introduced every known and valuable improvement. They have invaria-bly been selected and used by all of the world's ac-knowledged great artists who have visited this country professionally, both for private and public use.

I consider Chickering & Sons' Pianos, beyond comparison, the best I have ever seen in America.

I consider Chickering & Sons' Pianos superior to any in the world.

They are unrivalled for their singing qualities and for the harmonious roundness of their tone. There is a perfect homogeneity throughout all the registers. The upper notes are remarkable for a clearness and purity which I do not find in any other instrument, while the base is distinguished for power without harshness, and for a magnificent sonority.

Your Pianos are superior to any I have ever seen in this country or in Europe.

I have never heard a tone so perfect; it yields every expression that is needed in music, and its quality is capable of change to meet every sentiment. This is a rare power, and is derived from the perfect purity of its tone, together with its sympathetic, elastic and well balanced touch.

POZNANSKI.

During the past eight years I have constantly played upon the justly celebrated Erard Plance; yours are the only instruments that I have found, either here or in Europe, to equal them in all their points of excellence.
